ADMINISTRATION AREA OF ATOM BLOK AND TETS

25X1

1. Gates. Not used--nailed shut.
2. Temporary barbed wire fence. 2½ meters high. Fastened to wooden poles at 3-meter intervals. A concrete wall is supposed to replace this fence by the time the project is completed.
3. Wooden watch towers. Each is equipped with a telephone and a revolving search light. [redacted] the guards are changed every four hours, [redacted] the guards were provided by the local MVD administration, but [redacted] the project will have permanent guards of its own after it is in operation.
4. Guard house at entrance (prokhodnaya).
5. Concrete road three meters in width.
6. Driveways.
7. Fire station. Two-story building with a gray asbestos roof. Has capacity for six fire trucks. In the back of the station on the first floor there are two apartments and on the second story there are four 3-room apartments for fireman.
8. One-story building with room for one fire truck, referred to as gazospasatel'niy, [redacted] *Motorized rescue squad?*
9. Laundry. Had no electric machinery [redacted] but it was said that some would be installed at a later date.
10. One-story brick garage for 39 cars--both trucks and passenger cars (exact number of each unknown [redacted]). Black roof covered with tol'.
11. Planning office. Three-story brick building. (Planovaya kontora) Covered with a tol' roof.
12. Prokhodnaya. Two-story building. Workers change clothes in this building before and after work. Lockers had been installed.
13. Four-story brick office building with a tol' roof. Furniture had been installed.
14. Kitchen and mess hall. Two-story building with the kitchen on the first floor and the mess hall on the second. Mess hall can accommodate 100 at a time.
15. Completed tram tracks. The tram was not yet in operation.

OMSK

1. City of Omsk.
2. Asphalted road 5-6 meters wide. Completed in 1953. Heavy truck traffic of trucks supplying the construction area.
3. Posiolok Shkolniy or Tridsat' Shestoy Kvartal. Building of this settlement began in the last couple of years. Houses are mostly two or three stories, either of red brick or painted white. They are for workers and employees of the newly constructed factories in that area. Presently occupies an area of half a kilometer. It is planned to have it extend toward the atom block and Omsk until it joins with both. Only partly finished and at the rate it is being built it will take at least two more years to complete it.
4. Irtysh River. Six km. from Posiolok Shkolniy and 14 km. from Omskstroy.
5. Chetvertoye Lagernoye Otdeleniye Omskstroya (4th camp section of Omskstroy). Consists of 10-12 one-story wooden barracks. About 1000 prisoners.
6. Tret'ye Lagernoye Otdeleniye Omskstroya (3d camp section of Omskstroy). Identical with 4th camp section. Predominant nationality is western Ukrainian (mostly Galicians).
7. Piatoye Lagernoye Otdeleniye Omskstroya (5th camp section of Omskstroy). Identical with 3d and 4th sections. Predominant nationality--Russian.
8. RMZ or referred to as Rembaza. Construction began in the middle of 1954
[redacted]
9. Glavniy RMZ. Many two- and three-story red brick buildings fenced in by a 2-meter-high red brick wall into the top of which splintered glass had been cemented.
10. Betonniy Zavod (concrete factory). Four or five red brick and concrete buildings. (Details unknown.)
11. Area for future public park^K. Work began in September 1954
[redacted]
12. Omskstroy residences. The houses are mostly one-story wooden barracks of former labor camps. There are also some small individually constructed houses and huts.
13. Administratsiya atom block and TETS (Administration building of atom block and TETS).
14. Thermo Electro Center (TETS).
15. Omskstroy railroad. Terminates there. Whether single- or double track is unknown
[redacted]
